

## ARE YOU THE NEW PIERO ANGELA?

We are seeking a successful and young postdoc candidate who can figure as **Open Science Communicator at the Centre for Integrative Biology (CIBIO) of the University of Trento.**

The candidate will have the chance to apply, jointly with CIBIO, to a 3-years project aimed to communicate knowledge and innovation generated at CIBIO and to connect it with society and economy.

The project will respond to a call for funding promoted by the Autonomous Province of Trento (PAT) for training and project activities (see link - in Italian).

[http://www.uniricerca.provincia.tn.it/Bandi\\_di\\_ricerca/Bandi\\_PAT/-I\\_COMUNICATORI\\_STAR\\_DELLA\\_SCIENZA/pagina27.html](http://www.uniricerca.provincia.tn.it/Bandi_di_ricerca/Bandi_PAT/-I_COMUNICATORI_STAR_DELLA_SCIENZA/pagina27.html)

The successful candidate is:

- a PhD, from not more than three years, in relevant scientific disciplines such Molecular Biology, Biotechnology, Biomedicine
- not older than 35-y.o.
- willing to train and start a career as an Advanced Science Communicator
- experienced in Science Communication or Technology Transfer (desirable but not compulsory)
- fluent in both English and Italian

The open call from PAT will award proposals presented by a candidate (as detailed above) in conjunction with the University of Trento and to be performed at the University of Trento.

It is a 3-years programme aiming to provide an initial year of training (to be organized by the proponent together with its host institution) followed by two years of project development.

Funding is 300kEuro per project including stipend for proponent and all other direct costs for project's activities.

If interested please contact Simona Casarosa ([simona.casarosa@unitn.it](mailto:simona.casarosa@unitn.it)) or Michela Denti ([michela.denti@unitn.it](mailto:michela.denti@unitn.it)) by December 22, 2016.
